## Organization Profile

## About Us

- IACC, stand for Indonesian Association for Clinical Chemistry and Laboratory Medicine
- IACC or Himpunan Kimia Klinik Indonesia (HKKI) in Indonesia Language was established legally on 25 January 1980 in Jakarta.
- The idea of forming the association was initiated by the First Congress of the Asia-Pacific Federation for Clinical Biochemistry (APFCB) held in Singapore, 14th-17th October 1979. Historically known as HKKI, but since around 2019, the name IACC is used more broadly.
- During the Congress, around 30 Indonesian participants, including dr. Jeanne Latu, dr. Marsetio Donosepoetro, dr. Tejo Baskoro, dr. Widyaharsana, Dr. Gino Tan, Drs. Andi Wijaya, Dr. Bina Suhendra, Drs. Gunawan, dr Siti Boedina Kresno and dr Marzuki Suryaatmadja gathered and met in Johnson & Johnson's hospitality room of the Shangri-La Hotel, the Congress site. The meeting was chaired by dr. Widyaharsana who was the Director of Health Laboratory Services, Republik Indonesia Ministry of Health. During the meeting they decided to form IACC with dr. Widyaharsana, Dr. Gino Tan, and Drs. Andy Wijaya as the steering committee

## Vision

To establish the Indonesian Association for Clinical Chemistry and Laboratory Medicine as a professional, leading, and respected organization, and to become an outstanding institution in the development of clinical chemistry and laboratory medicine science and technology that contributes to human well-being.

# Mission

To enhance the professionalism and knowledge of IACC members through continuous education via scientific meetings, seminars, symposiums, or workshops in fields related to Clinical Chemistry and Laboratory Medicine.

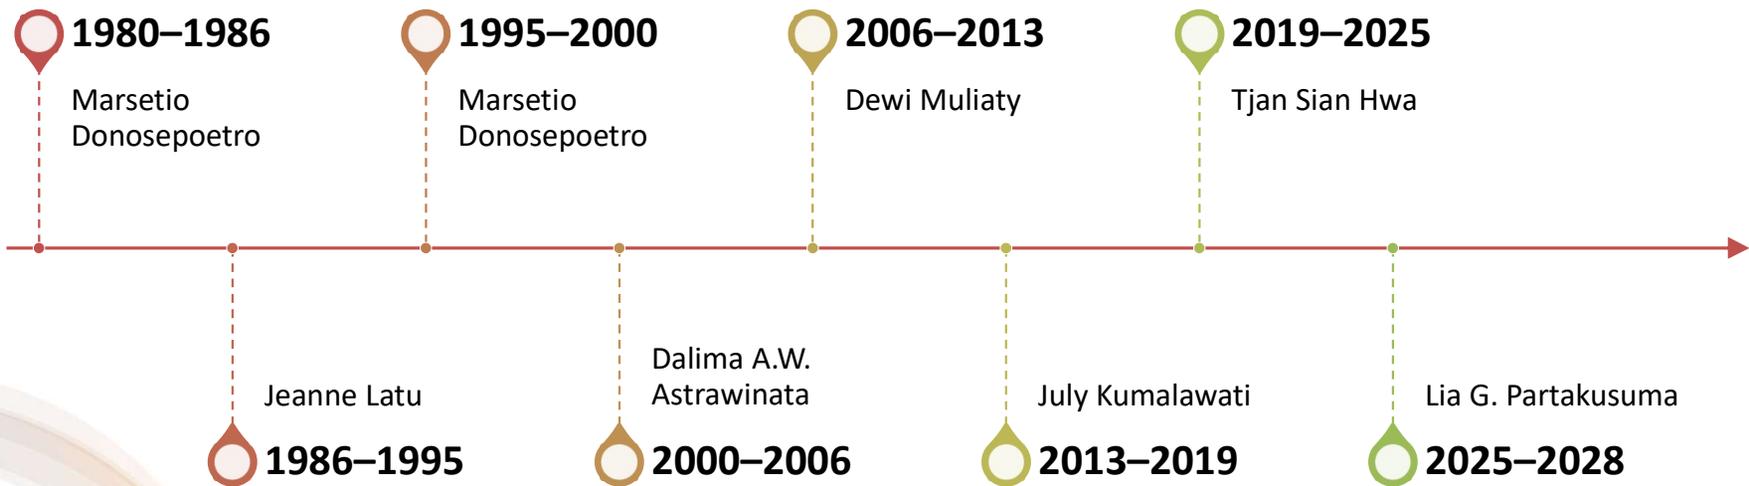

To facilitate information exchange in the field of Clinical Chemistry and Laboratory Medicine among all parties interested in this field, both nationally and internationally.

To increase research activities by members in the field of Clinical Chemistry and Laboratory Medicine.

To improve the scientific publications of members, both nationally and internationally.

To strengthen the role of Indonesian Association for Clinical Chemistry and Laboratory Medicine in the international Clinical Chemistry and Laboratory Medicine community.

# Presidents Timeline

Members  
are professionals  
from a wide range  
of scientific /  
clinical disciplines:

- medical doctors,  
clinical pathologists,  
microbiologists,  
biochemists,  
pharmacists,  
biologists, and other  
scientists interested  
in clinical chemistry  
& laboratory  
medicine

## Affiliations

- Shortly after founding, IACC became a member of APFCB (Asia-Pacific Federation for Clinical Biochemistry) because many of its founders were also involved in APFCB
- Since 1986, IACC is a member of the International Federation for Clinical Chemistry and Laboratory Medicine (IFCC).

## Role & Impact

- IACC plays a key role in strengthening clinical chemistry and laboratory medicine practice
- Improving laboratory medicine quality in Indonesia
- Enhancing education, collaboration, and quality assurance. Supports scientific growth and lab quality nationwide
- Promote ESG in Laboratory Medicine

# Major Milestones

A large audience of people is seated in a dark theater, looking towards a bright screen at the front. The audience is seen from behind, and the lighting is dim, with the screen area being the brightest part of the image.
